Subject: Well review findings regarding the 176 wells

Dear David:

Please find attached the updated list of wells that the State identified as having been permitted to dispose of Class II fluid into non-exempt, sub-3,000 mg/l Total Dissolved Solids aquifers. You will find the updated status of each well and those actions taken by the State to address any concerns. If you have any questions, please let me know or bring them to our attention at this Thursday's meeting.

Thanks,

Robert S. Habel, Technical Services Manager
