Caroline –

I just uploaded and sent a notification via the GSDT indicating that we have reviewed the Brown Pelican project application and have found it to be administratively complete. The GSDT upload is redacted with respect to the project location, so I am attaching the unredacted version here for your reference.

Also, I just wanted to let you know that I looked through the uploaded files, and it looks like all files in the GSDT have the project location redacted except for the Financial Assurance. Since the location is redacted in all other files, I figured this was probably just an oversight and wanted to let you know so that you can correct it if desired.

We will begin the technical review of the application shortly and be in touch with any questions or requests for additional information. In the meantime, please feel free to reach out if you have any questions or concerns.

Thank you!
