TO: Thurston

FROM: Paul Bollay & Francoise Brosier

DATE: 11/10/82

TIME: ~2

SUBJECT: Calif UIC (1425) and other UIC items

SUMMARY OF COMMUNICATION

1) ODW has convinced Enf that enforcement program of CDOG is adequate

2) Gilich is working with Calif A.G. on the permit 'shield' issue - resolution not expected to be a problem.

3) ODW would like us to remove from the mou the discussion regarding the aquifer exemptions. While they like what we were able to do they would prefer we handle it by gentlemen's agreement because: 1) the R.A.'s have not been delegated the authority to exempt aquifers and 2) there is no provision in the law or regs to allow for the 18 month provision.

4) Re Calif 1422 program application - we projected a formal application by Dec. ODW requests that if possible we hold off until Feb as they expect to be overloaded the 1st quarter. I said we probably could off if the AWAS dates were not locked in yet. Bollay emphasized the need to be realistic as possible with all our AWAS dates when we turn them into Crompton.
