A water issue that may get some press! See below. And in case you need to refresh your memory on how some of this might play out in the press, here's that ProPublica story from a year and a half months ago on EPA and the oil industry and aquifer exemptions, etc. (with a mention of

Kern County): http://www.propublica.org/article/poisoning-the-well-how-the-feds-let-industry-pollute-the-nations-undergroun
