Thanks John -
Is there a good time for us to talk tomorrow before your call w cv rwcb? 9am works well for us.
Thanks for following up with us on this.
Mike

Subject: Aquifer Exemptions

Mr. Montgomery:

About two weeks ago we transitioned some folks to different positions and now Rob Habel is the Technical Program Manager. Rob supervises Jerry Salera, and Jerry is the UIC program manager. We are scheduled to have a conference call with the Central Valley Regional Water Quality Control Board staff tomorrow to discuss aquifer exemptions and develop a timeline for moving forward.

Did you have a few minutes today to discuss? As per your email to Pat Perez on May 8th we would like to schedule a follow up meeting with EPA in May, and we would like to develop an agenda to help focus the discussions.

Thank you,

John Geroch

Chief Deputy
