Subject: [EXTERNAL]RE: Follow-up to your October 7, 2021 report of non-compliance

Hello Diana,

Thank you for your October 7, 2021 report of the October 2, 2021 spill from BETA's platform Ellen, Elly and Eureka complex under NPDES Permit CAG280000. This report did not contain all of the information required under Section IV.(l)(6)(i), which states, "The written submission shall contain a description of the noncompliance and its causes; the period of noncompliance, including exact dates and times, and if the noncompliance has not been corrected, the anticipated time it is expected to continue; and steps taken or planned to reduce, eliminate, and prevent reoccurrence of the noncompliance."

Please provide additional detail to help EPA understand the impact and causes of this event. Include at minimum:

1. the estimated volume of the spill and how you arrived at that number;
2. Your report stated that the leak came from pipeline segment P00547, but we don't have documentation of where that is. Provide a site map showing exactly where the leak occurred. Identify the locations of any other important pertinent infrastructure and of the actions described in response to 6 and 7 above.

Please provide your response by Wednesday October 20, 2021.

Thank you,

Adam Howell
