Rich,

Thanks so much for coordinating the call this morning. I will put together materials for Dave and cc you.

Rob

That's cool, seeing your list. Very similar. I like that you make a connection with the use, and presumably selection, of reference sites.

I'm thinking now that it is probably best to first chat with Dave, and see if he wants to start review with a set of questions. If so, then we can shuffle the two lists together and have him help consolidate them.

Have a good evening,

Rich

Rich,

Thanks for the list…looks similar to one I drafted earlier. Feel free to send it on to Dave.

Best,

Rob

Hey Rob,

It may be helpful to Dave Jewett if we can suggest a few questions that go along with the request for assistance you shared on Tuesday (below). Here are few questions for your consideration based on our chat this morning and your April 9 tech memo.

A good outcome of our call with Dave is refinement of the questions; that his colleagues will hopefully answer. My tendency is to seek yes/no type answers followed by supporting rationale.
