Hi Jenniffer,

I was out of the office this morning & Paul is out of the office this afternoon, but I left him a message for tomorrow.

My understanding is that things are moving forward with the EPA lab and yes, (!) we all want to wrap this one up.

Due to our hiring procedures, it will take a while to "officially" fill the vacant slot. In the meantime, everyone in the Section will be pitching in and Stacey is available for management related needs.

P.S. Thanks for the email that you sent regarding FY17 Priority Permit preliminary candidates. Also, **I will be out of the office next week**, so let me know tomorrow morning if there is anything ya'll

need before August 8th.

-

Thanks

K

Subject: LOOP

Kay,

Last I spoke to Paul, he was working with the lab and Sylvia (?) on the language/requirements that would be necessary to move the LOOP permit along. I just wanted to touch bases with you to see if there were any new updates. As I'm sure you're aware, we'd love to get this one moving so we can check off early issuance of one of the FY17 Priority Candidate Permits.

As a side note, has anyone been placed into Paul's spot?
