Subject: RE: QAPP for Bridgeton Dust investigation

Good morning, Tom. I am available for a call tomorrow, especially if it is in the morning – my schedule gets more problematic as the day goes on.

Subject: QAPP for Bridgeton Dust investigation

Cory and Spencer,

Attached is the QAPP that EPA intends to perform next week at residences in Spanish Village. Please take a look at this QAPP and let's discuss any thoughts or input you might have. I am trying to coordinate a call on Wednesday with MDNR, MDHSS, and St. Louis FUSRAP (USACE) to discuss everyone's comments.

For your awareness, this QAPP is currently being reviewed by EPA QA personnel so minor revisions may occur between now and Wednesday pending there review.

Are either of you available to participate in this call on Wednesday?

Tom Mahler

On-Scene Coordinator

US EPA Region 7
