Actually I haven't heard anything from LOOP since Stacey told me that she and Tim Hardy had traded voice mail messages a couple of weeks following the face-to-café meeting.

Hi Rob,

Thanks for the reminder. Silvia Bogdan, WET for 6WQ-P, will be submitting the WAR for LOOP this week, I think. …still working out the toxicity concern ☺

Is Stacey keeping you updated on LOOP lately? There have been a few updates since the "live" meeting in Dallas on Sept 5, 2017. I anticipate that there will be another call (LOOP/LDEQ/EPA) in the near future.

Let us know if you need any info before then.

Thanks

K

Subject: ENERGY Folks: Using Applicable Reports Categories in the new Weekly Activity Reporting System
Importance: High

With the new WAR system, in addition to informing your upper management of your activities, please check the ENERGY box under Applicable Reports. The areas can be pretty broad to include oil and gas (compliance assistance, permitting, enforcement, and remediation), LNG terminals and pipelines, renewable / green energy (solar, wind, biomass, hydro), or energy efficiency built into Superfund remediation, RCRA clean-ups, or other actions.

All you need to do is check a box on whatever write-up you were already submitting.

Thanks for the assistance! And share this message with anyone you think might have been missed.

Subject: Using Applicable Reports Categories in the new Weekly Activity Reporting System

Coordinators,

The Transition Action Team included check boxes for certain regional focus areas in the "Applicable Reports" section of the new Weekly Activity Reporting (WAR) system to permit rapid querying and reporting on the topics. You are receiving this e-mail because you have been identified as a coordinator or point-of-contact for one of the areas. The areas and contacts are:

Environmental Justice – Arturo Blanco

Children's Health – Paula Selzer

Gulf of Mexico – Doug Jacobson

US Mexico Border – Arturo Blanco

Energy Policy – Rob Lawrence

Agriculture – Randall Rush

Reuse – Carl Edlund

As a coordinator or point-of-contact, please ask other staff you are working with on projects related to that area to check the focus area box when they submit a relevant WAR. For example, the Ag Advisor should ask members of the Ag Committee to check the "Agriculture" box when submitting a relevant WAR. At end-of-year the Ag Advisor can run a query using the "Agriculture" field in the "Search/Reports" section to pull together all activities related to agriculture for the FY. If you have any questions please see your designated Division contact for the new WAR system or give me a call if your coordinator can't find the answer.
