Ryan Chouest PowerPoint Bullets for 6/27/10
Operational Period 6/26/2010 Sampling Period

- Ryan Chouest logged fluorometry measurements and observed sea-surface conditions.

- Observed sections of disseminated, small pieces of orange mousse and red-orange emulsions. Brown oil and rainbow sheen were also observed at two locations deep within the potential oiling footprint of 6/25.

- They continue to perform liquid-liquid extractions on seawater samples and analyze with the GCMS.
