I think it is fine to share the current version, it does not have to be precise, I just want folks to be able to understand the scope of the document
thanks
Doug

Just a reminder that I was hoping for feedback on these slides, if any, by today if possible.

Attached are drafts of the slides we are proposing to present to the CAG at next week's meeting.

For the CHASP overview (PDF file), I will be transmitting the following minor comments to Occidental-Glenn Springs:

- Slide 10: Add capping to the 5th bullet
- Slide 11: Label the dredging platform
- Slide 14: Noise monitoring station is out of focus.

Please let me know if you have any additional comments by next Monday (3/7) if possible, to give presenters some time to make the changes. Let me know if you need more time for review.
