Subject: EER Demonstration March 22, 2016, City of Albuquerque Environmental Health Department

Dot,
Please find attached the March 22, 2016. Please note that the 30 day public comment period started Nov. 21, 2017 and will end Friday December 22, 2017. At the moment I have received no public comment on the documents. The documents are on the City's website at: https://www.cabq.gov/airquality/air-quality-monitoring/copy_of_exceptional-event-documentation and have also been sent daily under the City's Air Quality Index email service which is sent to over 8,000 area residents. Once the public comment period ends and public comments will be compiled with the associated City of Albuquerque response to those comments and a final submission of the 2016 EERs will be sent to EPA Region 6 for review.
