Subject: urgent information

Dr. Mr. Pruitt,

Congratulations on your new post. I am heartened to believe that it might be possible to eliminate this agency and the harm it is doing to the American Citizens.

Please look into this urgent situation> Ex. 6 - Personal Privacy Veteran, 77 years old, in prison (where he is denied medical attention,- had a stroke in prison) for building a pond--- He had proper permits from his state/county. Please help Ex. 6 - Personal Privacy to be freed from prison, pardoned and released from the overreaching power of the EPA to use its power to harass and debilitate innocent, hardworking Americans.

Thank you in advance for looking into this situation.

It is urgent—we do not want to die in prison at the hands of the EPA gone rogue.

Blessings,

cyndi
