Robyn,

I'm not throwing an error on NE. I downloaded the AVERT version from the website (v1.4 09-15-15) and pulled 2014 RDF from the website. No problems. Maybe the download of the NE RDF was interrupted when you pulled it?

Subject: FW: AVERT main module

Hi Jeremy,

Here is the newest Main Module file. The North East data file I used was the one pulled from the AVERT web site for 2014.

I've got to run to a meeting. But the error is about loading the data in main module..

Subject: AVERT main module

Hi Robyn,

Here's the AVERT main module again (attached), just for the record. It's the same version you've been looking at.
