Hi Sue,

Barbara reorganized the human data section, and we both provided some comments/ suggestions for you to consider during your revision.

Similar to the MOA suggestions I sent previously, these are a bit messy, but please let us know when you would like to meet to discuss potential changes to the major conclusions, or any of the other revision suggestions that might be unclear or warranting a chat. We hope that you find these helpful, and please let us know your thoughts on a schedule for bringing this section to completion.

Best,
Barbara and Andrew
