Ames warehouse fire OR 11/2/17

- Start unable to return equipment?
  - possibly have light making company
- Flare up onsite last night. FD responded but had trouble accessing bldg of fencing. Under a beam flared up. FD responded for a few hrs.
- 5 Summa canisters deployed this morning around 0800 for 12 hrs
- Chris collected ash sample last night and split w/ owner
- Chris took photo of burned drum
- Chris tested fire fighting gear, take wipe samples etc. EMA director received kudos for all Chris did.
- RP has given list of how they are fulfilling order. → Security, meeting w/ consultants, inspections of surface runoff, installed fencing, discussions w/ landfills for waste disposal.
  - Still drafting Action Memo in case, but not expected for Mon.
  - Chris saw consultants onsite, force is good, owner gave no problems w/ ash sampling
- Standing down, still in cons w/ state + locals. Debbie leaving tonight, Chris tomorrow
