Dear Madeline, Meg and Robin, and Dawn, Nikea, Taylor and Chris,
Thank you for a stimulating, fun and very useful 2 sessions! Kudos for this excellent work you do!
Warmly,
David

It was a pleasure to work with all of you. It's not easy to step out of your comfort zone and try something a bit strange. It's for a good cause, though...getting science out to the public! Thanks for taking the time.

Hi everyone,

Thank you for a fantastic workshop over the past couple weeks. It was a pleasure to work with, and learn from, all of you.

A few follow up resources and requests from your trainers:

- If you have feedback or thoughts on the workshop, we would absolutely love to hear them. You can reach out to Madeline or me by email or by scheduling a quick phone call.
- If you would like to recommend our more in-depth, 17.5 hour workshop to your staff, they can find more info on EPA's intranet site, including a form that gets them on the mailing list for joining future training.
- We have an upcoming workshop focusing on the intersection of risk communication and ecological risk from July 11–15. If you have anyone in mind who would be a good fit for that class/topic, please encourage them to fill out this survey/registration form ASAP!
- For ease of reference, EPA has a webpage dedicated to providing information and resources on risk communication (including short videos and the SALT Framework).

Last but not least, a huge thank you to Dawn, Taylor, Nickea, and Chris for joining us to share their perspectives, experiences, and expertise. We could not do these workshops without them. I've cc'ed them here in case you'd like to reach out.

I look forward to crossing paths with all of you again in the future!

All the best,
Meg
