Warehouse Fire ER (cont) 10/31/17

w/ state order. Inventory of chemicals in building. erect fence. conduct associated cleanup. Needs additional guidance for sampling + disposal. Has spoken to some contractors.

- EPA mentioned EPA could take over if property owner doesn't comply
- Property owner notified verbally of possible written access request to collect samples on property.
- Data Ram data continuing to come in
- Melissa + Jess working on format for Area Rae data.
- Newspaper article about schools opening and air monitoring
  - All peaks seen on EBAMS today w/ healthy ranges on AQI
  - EBAMS will be returned to corp
  - Connection cable purchased.
- Sample collected by WV DEP from permitted outfall from site. Split w/ CRSENCO + DEP.
- Our ash sample will be run for pesticides
- No air monitoring conducted for pesticide / herbicide

Warehouse Fire ER (cont) 10/31/17

- Aspect report possibly incomplete
  - Keep posted since that's what we have now. ASPECT will provide revisions if necessary.
- Tomorrow: Fire fighter equip. inspection. air monitoring on heated contaminated equipment. Air filters from unusable equip. will be used as waste sample. Ash sample also collected possibly tomorrow afternoon.
- Chris will talk to school after this call to discuss results and potential summa sampling
- Debbie + Chris will be onsite the rest of week. Stephanie + Melissa on the road now. Dennis will take phone duty.
- Written access: get copy to run by Andy. Chris, Glen, + Andy will coordinate.
- Put EBAM info into hd site report today
