Hi Endre,

I've attached the three documents that I believe are all of the written communications for this special case. You will see that OW delayed action for a year because Army stopped work on the JD to conduct an internal review.

I also have hard copies of correspondence regarding earlier R9 special case requests, from 2008, 2001 and 1980, but this may be less useful.

Please feel free to call me.

Hi Rich and Brett:

Wanted to follow up on our chat from last year regarding special case process. Can you send me the documentation you have that requested HQ to approve a special case? And maybe whatever HQ sent in response approving the special case designation. Not looking for subsequent info the JD itself … I've heard that things are ongoing (that may be a nice way of putting it).

Thanks and let me know if you'd like to discuss first. Hope all is well. Cheers

Subject: High Tide Line Report

Hi Rich and Brett:

Thanks for talking with me a couple weeks ago about R9's work on the SF Bay special case. I told you both that I would pass along R10's high tide line technical report, but it slipped my mind. Apologies for that. Ex. 5 - Deliberative Process

Ex. 5 - Deliberative Process

Let me know if you want to discuss anything. Also, I'd be really interested in seeing the documentation you have regarding the SF Bay special case – especially the Regional memo that started the special case determination process and triggered the response from HQ.

Thanks again for sharing your experiences and insight.

Later,

Endre M. Szalay
