Subject: Extraction Well #7 at Dico

During my weekly data collection at Dico, I discovered that the well screen on extraction well #7 needs to be cleaned. I contacted the well contractor and the cleaning of the well screen started today. The cleaning of the well screen requires the extraction well to be shut down. The well contractor will be back at Dico on Monday to finish the cleaning of the well screen. This extraction well should be restarted and back in operation on Monday.
