Subject: Extraction Well #7 at Dico

Erin, please be notified that extraction well #7 at Dico is not running. I tried to turn the well back on but there was no flow. I believe that due to the below freezing temperature a portion of the well pipe may be blocked with ice.

The weather forecast shows that it will be above freezing on Monday. I will try to restart this well on Monday and see if there is flow. If there is still no flow a well contractor will be contacted to find out what is wrong with this well.

Brian Mills
