Glad we were thinking the same. ☺ Up to you all on how they want to present it, but we will have to just use just one ppt.

Thanks

Exactly what I was thinking! ☺ Just trying to get an answer to whether they want to use existing slides or do their own.

Thanks….

Got it. Maybe best for Endre to talk about the legal definition of High Tide Line, you to talk about it from a jurisdiction and procedural (explain tidal datum and differences), and have Susan talk about the WDFW and habitat portion from a PS perspective?

Good morning.

As you suggested, I touched based with Susan & Endre, & they both do want to tag team on the ET presentation. Unfortunately, that is now beginning to resemble an effort at herding cats, no doubt because of their schedules. I'm sure we'll get it figured out.

Also, as a reminder, given the ET presentation, I'll be in Seattle on Tuesday & Wednesday next week, instead of the usual Wednesday & Thursday.

Thanks,

Heather
