And oddly enough, the PN, for both the 404 and EIS, was issued prior to the start of public comment review period reflected in the PN. So that may add to the date confusion.

The EIS and PN comment period was set for 45 days and then extended to 60.

Mark

I am reviewing the 404 public notices for the June Report and see that POA-2009-00651 – ASAP project - has 60 days under review. Would you help to clarify why this is at 60 days? Was the review period extended?

Thanks,

Charles
