Subject: EPA Comments on MO's Lake Numeric Nutrient Criteria Proposal
Madras Nutrient Criteria Thresholds_5_12_2016.pdf

John, thank you for all the information you've provided to us on your ongoing lake NNC development. Attached are EPA's preliminary comments based upon our review of the most recent draft NNC Rule document we have, the *Rationale* and the information contained in the presentations MDNR made to the Region and EPA HQ. As the letter states, we intend to provide more details about our concerns during the public comment period on the RIR for this Rule. Please contact Karen or me if you have questions.
