Fact Sheet for NFR (00000002).docx

Dear Colleagues –

On November 16, 2015, U.S. EPA Regional Administrator Jared Blumenfeld signed a Federal Register notice of final rulemaking to approve the Truckee Meadows maintenance plan and redesignation request for the 24-hour coarse particulate matter (PM_{10}) National Ambient Air Quality Standard (NAAQS).

The EPA's final actions will be published in the Federal Register in approximately two weeks and become effective 30 days after publication. I am attaching a pre-publication version of the notice and a fact sheet for your information. These documents will soon be available at: http://www.epa.gov/region9/air/actions/nv.html#washoe

This final rulemaking marks a significant milestone for the State of Nevada. With this action, the State of Nevada is now currently designated attainment for all NAAQS, including all of Washoe and Clark Counties as well as rural Nevada. Please let me know if you have any questions or need any additional information.

Regards,

Brent Maier
