Notice of Public Hearing on April 29, 2013 for Reconsideration of BART Compliance Date for Reid Gardner Generating Station.pdf

Dear Colleagues:

On April 29, 2013, EPA will be holding a public hearing to accept public comment on our March 26 proposal to extend the date by which Units 1, 2, and 3 at the Reid Gardner Generating Station must comply with Best Available Retrofit Technology (BART) limits for NOx, from January 1, 2015, to June 30, 2016. We are aware of the legislative action in Nevada. However, at this point we are planning to proceed with the hearing.

The public hearing will be held from 6 – 8 PM at the Big Auditorium located in the Moapa Band of Paiute Indians Administration Building. Additional details are provided in the attached notice that was published in the Federal Register today. The comment period will close on May 30, 2013.

If you have any questions, please feel free to contact me at 415.947.4256.
