I think 10 minutes is long enough. I'm reluctant to chop off anything from the other items, though. I, personally, wouldn't mind a longer meeting, but a 65 minute meeting is odd. Maybe schedule it for an hour and 15 minutes with the goal of going under that time, if we all prove efficient enough??

Hi Don,

Thanks for the advice. Do you think 10 minutes is enough time for New Development or should I increase to 15 minutes?

Jayne,

The agenda looks fine to me, although as these things often go, the last items of these agendas often get squeezed, and I see you're giving 5 minutes each for New Development and OSDS. OSDS is doable in 5 minutes. New Development might take a bit longer, although I understand that Forestry and meeting

settlement milestones should dominate our discussion.

Subject: REVIEW by COB Dec 1 or Participate in Planning Meeting Dec 1 (10 AM OR/WA or 1 PM DC): Draft Agenda for Dec 5 Quarterly OR CZARA 6217 Conference Call Nonresponsive

Hi:

Please welcome Greg Aldrich who will be the acting Water Quality Division Administrator for Oregon DEQ. He starts tomorrow and has much experience in the water programs. He will only be able to join us for the first 30 minutes. Neil Mullane, as most of you know already, is retiring today.

As promised, attached is a very draft agenda (and list of attachments) for the quarterly OR CZARA 6217 conference call. Please review the agenda and either call/email me with your comments and thoughts or participate in a planning meeting tomorrow at 10 AM (1 PM DC time). I also included names under certain topics--in which I would like your review. If there are two names, then the first one speaks and the second person elaborates.

For those who are available and interested, I have set up a conference call on Thursday Dec 1 at 10-11 AM to further discuss the agenda. The call in number is Nonresponsive

I will send out a final agenda and attachments on Friday December 2.
