Subject: Re: Would you push this out to folks that might be interested?

I would try the U Rochester folks or the Euro guys like Flemming Cassee who are Uf disciples.

Beth, Dan and Erika - you were not on the initial emails but some colleagues at U Colorado School of Public Health ask me if I knew anyone interested in writing a book chapter on ultra fine policy and health "working title, Ambient Combustion Ultrafine Particles and Health ". I said I would. The time line is very tight but I bet they would a bit flexible. It might be a nice opportunity for some one. Thanks . Hope you are all well.

Here is book description and list of folks involved.

Full chapter due date: February 15, 2020

A. Sources and Exposure Assessment/ Fate and Transport in the Atmosphere (Chapters 1-5)
B. Fate and Transport in the Body (Chapters 6-8)
C. Epidemiology and Health (Chapters 9 – 13)
D. Reductions and Solutions (Chapters 14-15)

Preface – the context – Doug/Christina

1. Size, shape and composition -- Olga-Ioanna Kalantzi and George Biskos
2. Combustion sources – Christina
3. Atmospheric chemistry –Jason Surrat? Doug will follow up
4. Spatial and temporal variation – Xiang et al., near roadway;
5. Land use regression modeling of UFP – Patton et al.
6. Transport throughout the body –Calderón-Garcidueñas
7. Exposure assessment – Kevin Lane and Doug
8. Toxicology – Christa Wright and Jonathan Shannahan
9. Controlled Exposure studies – Andersen Doug will follow up
10. Epidemiology overview – Mei/Flora (Completed)

11. Cardiovascular effects – Li

12. Respiratory effects – Patrick Ryan, Ashley Turner, U Cincinnati
13. Neurological effects – Ben Nephew, Worchester Polytechnic,
14. Policy – ?
15. Community-level mitigation – Pilar Botana and Shir Ginzberg

Afterword – research needs – Doug/Christina

Hello Everyone!

Do any of you have expertise, or know someone with expertise, in PM regulation in the U.S. or the EU? I'm looking for someone to write a book chapter. Please let me know if you do asap.

Ila Cote

Subject: RE: Question

Hi Ila,
Great to hear from you. The chapter we seek is for a book under the working title, Ambient Combustion Ultrafine Particles and Health that will be published with Nova Science Publishers. We are specifically looking for someone that is able to explain the past and current state of policy related to ultrafine particles. Although there are no current U.S. regulations we want to inform readers of the existing landscape of UFP policy in the U.S. and the E.U., challenges to setting regulations, and future prospects for regulation.

The turnaround time for the chapter is short, because the original author had to back out due to a change in work responsibilities. We would like an abstract as soon as possible (early January) and the full chapter is due February 15. We appreciate your consideration and look to hear from you soon.

Christina

Subject: Re: Question

I know lots of folks who have expertise in this area. My former staff wrote the PM Science assessment for the US and WHO, and provided tech support for the US regs. I also know the folks that wrote the regs. It would be useful to have more information about exactly what is needed.
