Jim,

Here is the map of the area being sampled tomorrow. I do not anything more formal than this. You could Google the area to get a better perspective of the streets and dwellings in the area. If you have any questions, please do not hesitate to contact me with them. I have discussed the EPA assistance with upper leadership and hopefully have some direction in the near future.

Jack

If you could send me the maps for the 40-60 houses that would be helpful. Also if you would like EPA support in the sampling effort on Wednesday let me know

I am briefing my management this afternoon on Mountaire and letting them know we spoke about the possibility of EPA assistance.
