2017-05-25- EPA Accomplishments.docx

Amy, the latest version is attached. Can you use this, with the topline points you have been using for the briefing memos. Can you work with Sarah, Brittany and Tate/Troy to update the numbers and then show to Justin/David to confirm. It's a little tricky b/c by the time he is testifying, this will change again (ie a lot will happen between now and mid-June/July) – so I think we should updated it with what has happened as of TODAY…not projected. We can always continue to update it. Let me know if you have questions or if I can help.

Amy – we need to take the topline messages and the EPA action stuff and run it by Policy and Legal so they can add any updates and double, triple check. Since these are talking points that he will use to testify on Congress, every single point needs to be buttoned up and air tight ;)
