HAZARDS COMMUNICATION STANDARD

OSHA 1910.1200

EMPLOYEE HAZARDOUS MATERIALS TRAINING PROGRAM

Date 3-6-97

Plant Hercules

Area HAS Free Dock

Ett=112

Supervisor [signature]

Client Safety

The following listed materials are considered to be hazardous to the employe working in this area:

N-Butanol

The employees assigned to work in this area have been informed of the hazardous materials in this area, the hazards they present to the workers, the location of hazards listed, the protective equipment that has been provided and where it is located, and procedures to be followed in case of an accidental exposure. I have received the training listed above and will so designate by signing this form.
