Subject: FW: Pebble Permit oversight/NEPA team meeting agenda & Pebble EIS website

Hi David and Jill-

Below is message that I sent to the Pebble permitting team in advance of our team meeting today.

I just want you to be aware that:

1. The Corps has launched its public Pebble EIS website (link below)

2. NOI is expected to be in the FR tomorrow, announcing a 30-day scoping period beginning on April 1

I was not sure whether the Corps was going to stick to the 30 day period given that the State had requested more time (verbally at the cooperating agency meeting), but looks like they did.

Patty

Subject: Pebble Permit oversight/NEPA team meeting agenda & Pebble EIS website

Hi all-

The Corps and AECOM have launched the public Pebble EIS website. Below is the link.

http://pebbleprojecteis.com/#/

The website includes a project overview, links to the application materials, an estimated schedule, and other information.

The Notice of Intent is expected to be published tomorrow in the Federal Register announcing a 30-day scoping period beginning on April 1.

We can discuss this during our team meeting today. Other agenda items include

- update on the cooperating agency meeting

-process for developing scoping comments

Please let me know if you have additional agenda topics.

Thanks-

Patty
