Tony, as discussed this morning, please use this same format in Tables 2 and Tables 3. To show the results of your rush turnaround time laboratory results, alongside the discharge requirements.. similarly Highlighting any exceedences.

Doug, could you add a comment /annotation on Figure 1 to distinquish flow to creek/ vs. flow to pond 3 for treatment that meets discharge? Could you also please clarify hours of operation, and is TKT on site six days despite the latest 12 inch snow storm?

Lynda

Subject: Leviathan Mine Spring Treatment Summary Report for April 4 to April 10, 2017

Hi Lynda and Lily,

Attached is the Lahontan Regional Water Quality Control Board's (LRWQCB) summary of 2017 Leviathan Mine spring treatment operations from April 4 to April 10, 2017. Please note the most recent sample results have been added to the Tables.

Please let me know if you have any questions.

Douglas Carey, P.G.

Senior Engineering Geologist

Leviathan Mine

Regional Water Quality Control Board, Lahontan Region
