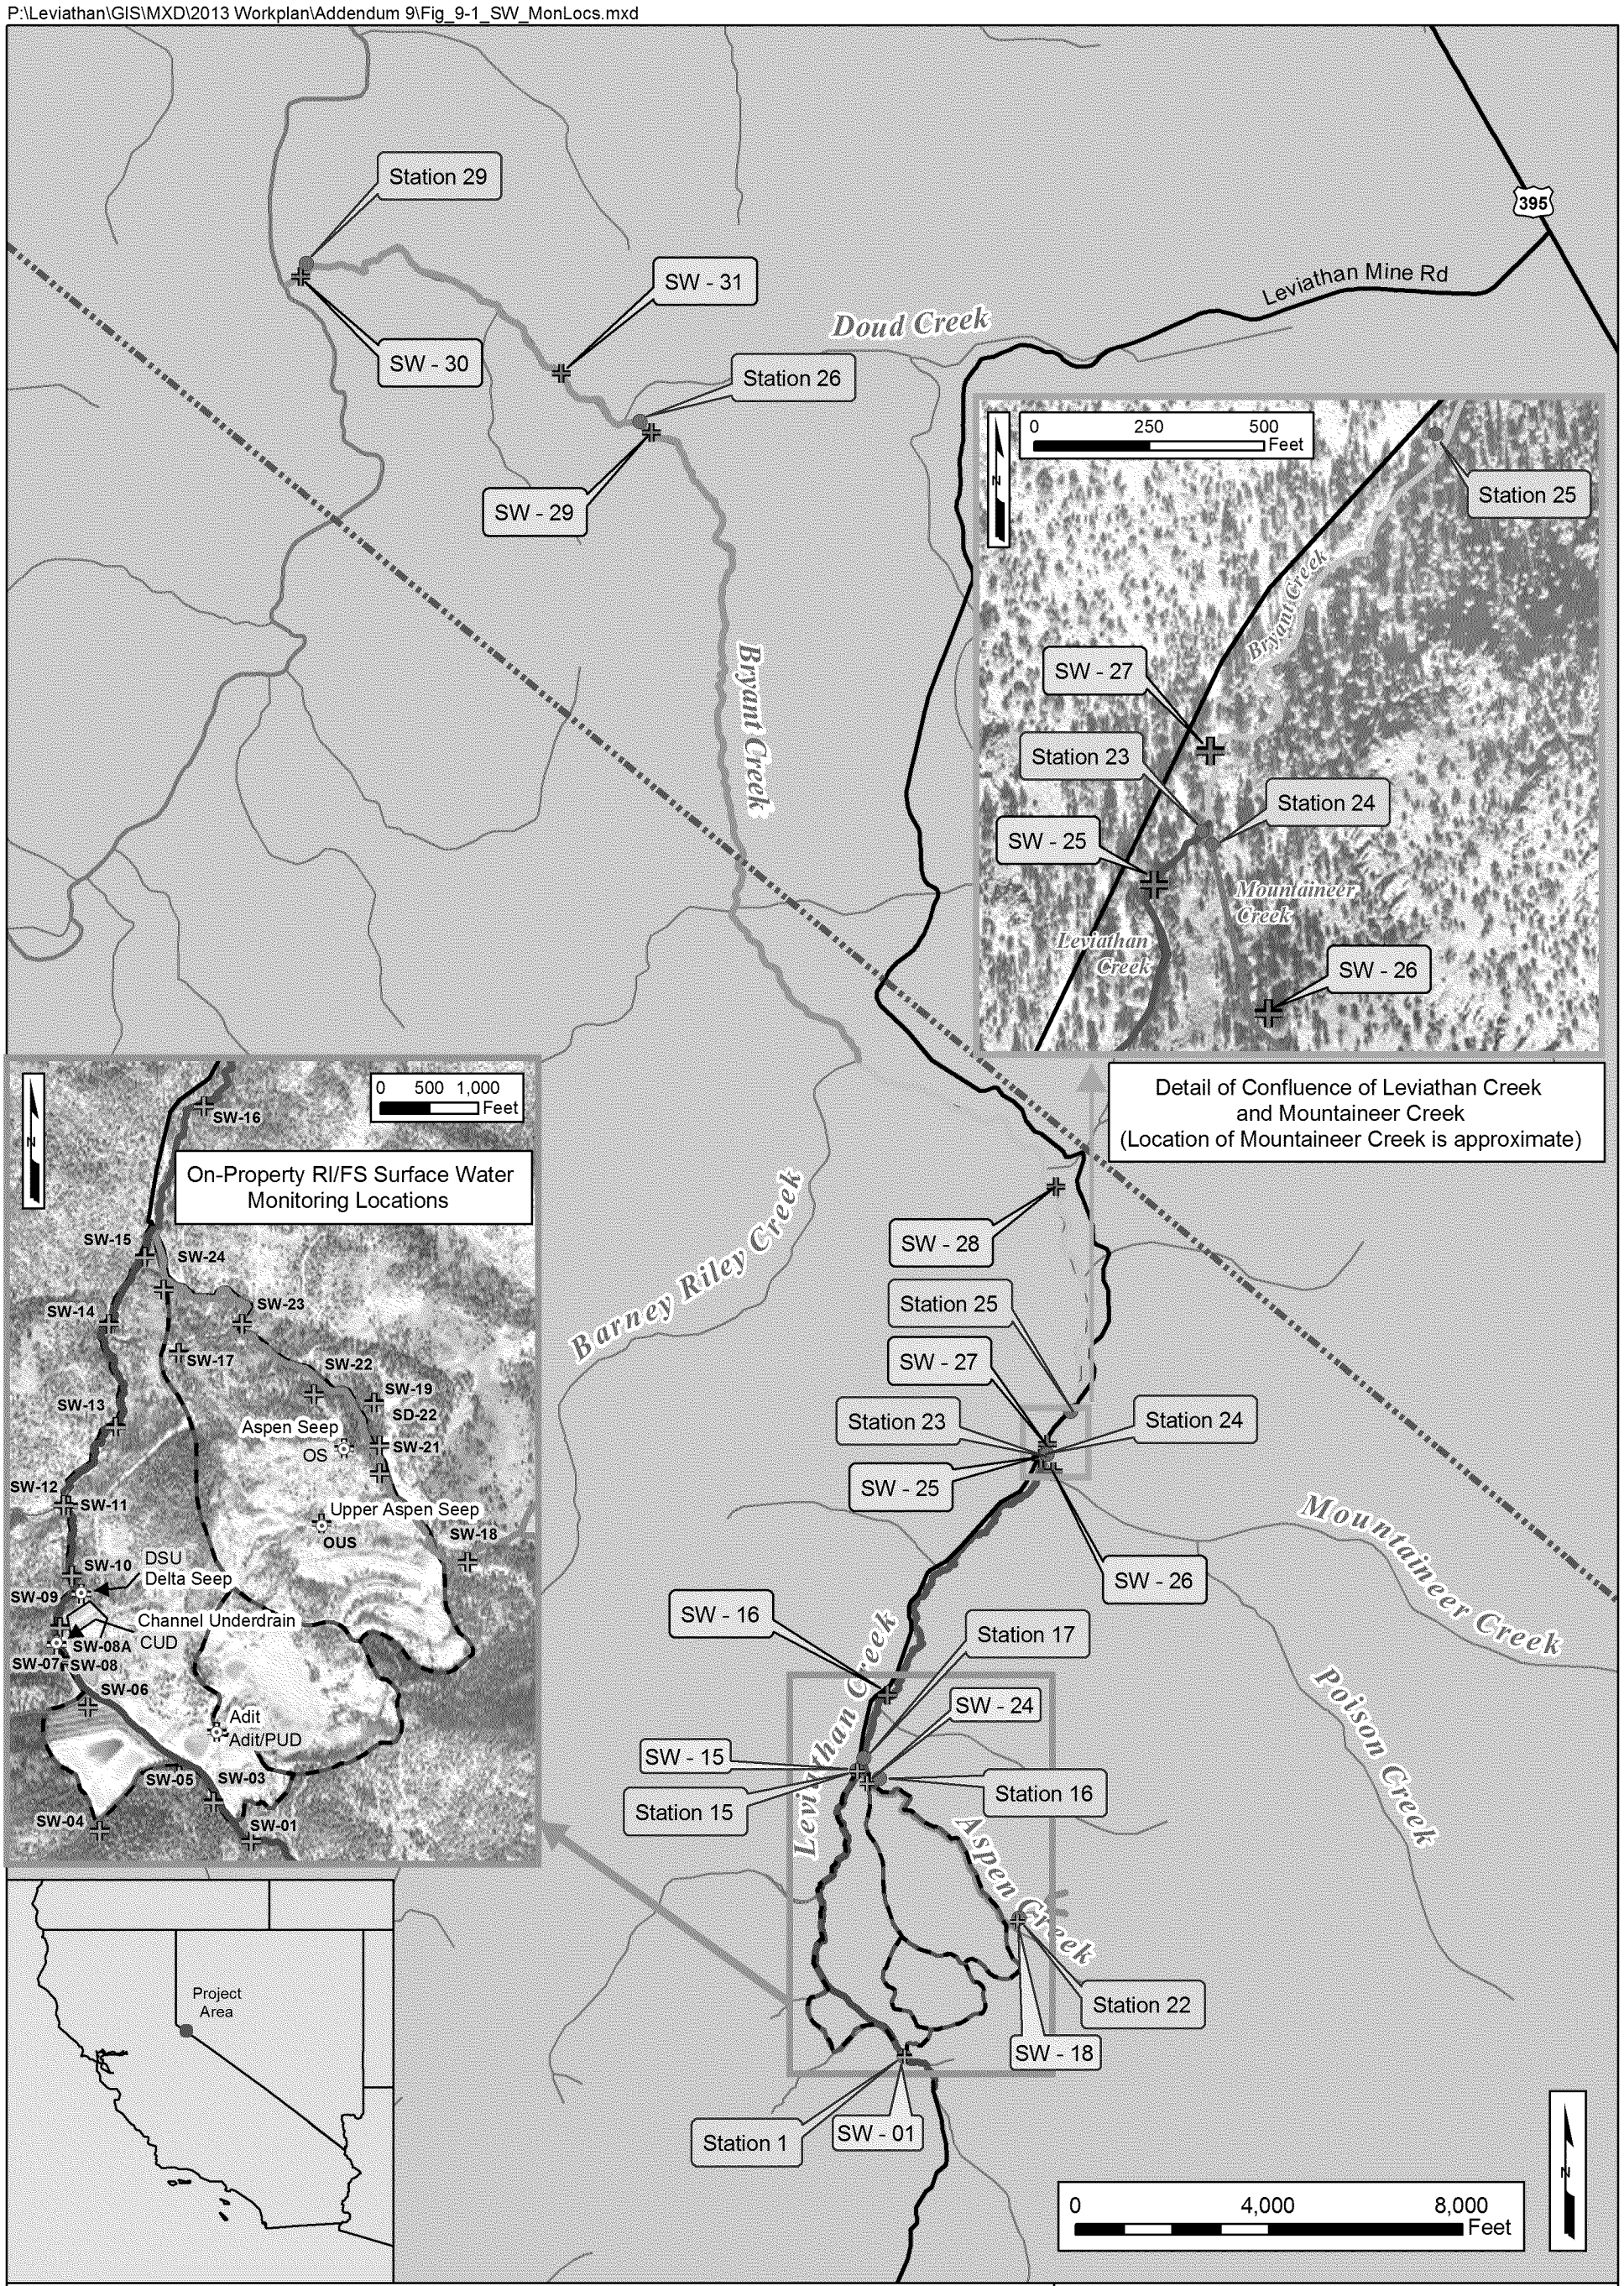
P:\Leviathan\GIS\MXD\2013 Workplan\Addendum 9\Fig_9-1_SW_MonLocs.mxd



Explanation:

- On-Property Surface Water Monitoring Locations
- On-Property Source Water Monitoring Locations
- DSA Surface Water Monitoring Locations
- On-Property Leviathan Creek
- On-Property Aspen Creek
- Discharge Point
- Historic Surface Water Monitoring Locations
- Reach #1
- Reach #2
- Reach #3
- East Fork Carson River
- Other Streams
- Leviathan Roads
- On-Property Study Areas
- State Line

Notes:
1. National Hydrography Dataset Flowlines are stream thalweg delineations provided by the USGS, but are not necessarily accurate on a localized scale. Updates to the stream thalwegs have been made where differences were noted based on field observations.
2. Background aerial photograph dated October 22, 2009.
3. All locations and boundaries are approximate.
4. SW-05, SW-06, SW-12 are located on tributaries that flow into Leviathan Creek.

SURFACE WATER MONITORING LOCATIONS
Leviathan Mine Site
Alpine County, California
