Good call this afternoon.

As one part of our follow-up, here's a final draft version of our public-facing 1-pager on prioritizing the CZARA workload to send out to our federal partners. Allison and I will draft some common language to transmit this to NOAA / EPA regional partners, respectively.

Joelle/Lynda--

Don and I revised the "options" and review timeline/priorities docs based on our last discussion (see attached). We can discuss and continue our conversation on options and next steps with sharing the more detailed status doc with our larger internal EPA/NOAA CZARA team and the shorter summary with state contacts.

Looking forward to talking more on Monday!

Allison
