Subject: RE: Leviathan Mine - October 2016 Monthly Progress Report

EPA is currently reviewing the June 30, 2016 Leviathan Mine Database and preparing comments.

Perhaps we could do a phone call to discuss broadly, but one of EPA's questions is regarding the completeness of the database.

Is all data, validated/unvalidated/rejected included; and what historical data and data collected from other agencies is captured? How often updated and how?

I note that one of the items in the ARC monthly states:

•□□□□□□□□ *Continued updating the Leviathan Mine Project Database with data from Atlantic Richfield and various agencies.*

Could ARC please provide a couple paragraphs with specific references clarifying what agencies data are included in the one complete project database?

Best Regards,

Lynda Deschambault

Environmental Scientist

USEPA Region 09

(415) 947-4183

Please be advised I may have limited access to email , therefore please be patient with any communication delays.

Subject: Leviathan Mine - October 2016 Monthly Progress Report

At the direction of Tony Brown of the Atlantic Richfield Company, please find attached to this e-mail an electronic copy of the Leviathan Mine Monthly Progress Report for the month of October 2016. Hard copies will be distributed via regular mail.

If you have any questions regarding this submittal, please feel free to contact me at the phone number below or Tony Brown at (657) 529-4537.

Sincerely,

Mike Johnson, PE
