Hi Katrhyn,

I have assigned the supports to be indexed, however, they won't be posted till the FRN has come out. Right now there's no posted FRN for the Final Rule –the phase where you have added these supports—unless you are expecting the FRN to come out on 3/30.

Now, if you want them posted for public view before the FRN comes out then you'll need to use a memo.

Regards,

Ms. Amparo Castillo

Importance: High

Dear Assem,

I want to let you know that I posted two supporting documents as meta data ready, ready for your QA, to Docket EPA-HQ-OW-2015-0753 (Cadmium Aquatic Life Water Quality Criteria).

We need to have these documents posted in the docket for public viewing on March 30, 2016.

Thank you very much for your help.

If you have any questions please feel free to call me at 202-564-1398, or Mike Elias at 202-566-0120.

Regards,

Kathryn Gallagher

And we should be able to post that last one we have by noon at the latest.

Thanks!

Hi, Mike –

Sorry. We've been busy with a few dockets closing around the same time.

I think we still have one that needs processing. The rest has been posted.

One caveat though: it's always difficult to know when/if paper comments are going to show up at some point just because of the nature of that medium and how it travels.

Many thanks!

Assem

Subject: Cadmium Aquatic Life Water Quality Criteria

Hi Assem,

I wanted to follow on Docket EPA-HQ-OW-2015-0753 (Cadmium Aquatic Life Water Quality Criteria) to check what the expected timeframe is for the upload of the remaining comments for public access. It currently looks like one of the eleven comments have been posted, and I assume the others are still undergoing review. I know it takes several days and the reason I am asking is that I have received a couple of external inquiries and I just need to provide them with a timeframe.

Thanks Assem!

Mike

Hi, Mike.

Thanks for heads up. Supporting and related materials are uploaded by the Rule Writers (or their designated staff/contractors).

Once you upload them in FDMS, please make sure that the status is to metadata_ready.

Happy Thanksgiving!

Assem,

We are expecting the FR Notice for the cadmium draft criteria to be issued around Dec. 1st or 2nd and the associated documents will need to be held until then, so we are providing you with materials in advance of that date for your QA process. Please find attached the cadmium criteria document. The document is 508 compliant. We will send you two other documents that should be included in the docket later today.

Thank you,

Mike Elias

Hi, Mike –

Here is your new docket: OW-2015-0753

Once you start loading your supporting documents, please make sure that their status is set to metadata_ready so our folks can work on them.

Many thanks!

Hi Assem,

I have attached the Docket Request Form for the Cadmium Aquatic Life Criteria. I also established an FDMS account. Please let me know if you need any additional information to

establish the docket number and/or if you have any questions. Thanks again for your help on this process.
