CLA Comments on SAP Disqualification 10 12 16.pdf

Hi Jack,

I just left you a voicemail saying I'm in Iowa today and tomorrow and wondering if we can find a time to talk about:

1. The letter we've submitted asking for public comment on the draft epi guideline framework and your reply
2. Our recent letters (also appended) about the glyphosate SAP.
3. CLA Board retreat at Charles Town, WVA—November 9-11

Let me know if there is a time window we can connect in by phone today or tomorrow?

Jay

Subject: FW: letter acknowledging petition to promulgate a regulation for the acceptance of epidemiological evidence in risk assessments

Jay,

Per your request, the email from you to Jack is below (I included the EPA letter responding to our email to the administrator), and the letter that we sent to the administrator (with all 3 attachments).

Subject: FW: letter acknowledging petition to promulgate a regulation for the acceptance of epidemiological evidence in risk assessments

Dear Jack,

Thanks for the acknowledgment of receipt of my September 22 letter. I'm not clear as to what it means that you have characterized my letter as "a petition"? And further your October 3 letter characterizes my letter as a request that "the Agency: promulgate a regulation establishing criteria…". That all sounds like notice and comment rulemaking—which was our 2010 petition that was denied by Steve Bradbury in 2011. We're now simply asking for EPA to do what Steve said EPA would do in his 2011 letter to CLA—to publish for public comment the framework guideline. Am I correct in thinking you've over-interpreted my September 22 letter to Administrator McCarthy?

Jay

Dear Mr. Vroom,

Attached is a copy of the letter acknowledging receipt of your petition.

Thank you.
