Hot off the presses.

These are all NEW issues being reported.

Please watch and the one where the Penta Poles were just installed into "Wet Lands".
http://www.king5.com/mb/tech/science/environment/pse-installed-toxic-utility-poles-in-kenmore-wetland/346507066
I am still reading 3 more new 2016 issues. Several are around GROUND WATER CONTAMINATION.
I see even in my town we just got 6 new Penta Poles.
The EPA is the only one that can stop this and I am hard pressed why they will not take action.
I attached the short recap pdf and my "BIG BOOK = PentaChloroPhenol_Story pdf".
You can watch more movies on http://www.PentaChloroPhenol.info

"WASHINGTON, Oct. 25, 2016 - The International Agency for Research on Cancer's latest report, which looks at the cancer-causing potential of five chemicals, received swift criticism from the group that represents U.S. pesticide manufacturers. IARC published a summary in The Lancet yesterday of its review of pentachlorophenol (PCP), IARC categorized pentachlorophenol as “carcinogenic to humans” (Group 1). "

Sincerely,
Chuck Idol
