Hello Stephen & Ila,

The only thing that I see in STICS is listed below, but I am not sure whether it is the correct record. I am not the TIM and do not have access to this record. Ila is the author of this record and needs to look in her STICS inbox to see who is listed as the TIM (possibility Crystal Samuels). If Crystal is the TIM then she can add the article to STICS. If this is not the correct record, then the author will have to look in their inbox and provide me with the STICS title and Clearance Tracking Number so that I can find it.

ORD-012749	Ila Cote	ord - Office of Research and Development, ncea - National Center for Environmental Assessment, odd - Office of the Deputy Director	Advancing the Next Generation of Risk Assessment	Peer Reviewed	Chemical Safety for Sustainability

Thanks,

Taukecha Cunningham

Steve: I'm forwarding to our TIM, Taukecha. She can help you.

Taukecha: can you access this in STICS and provide the info Steve needs?

Thanks,

Cheryl

Cheryl,

I was trying to locate the STICS tracking number or SI index number (if entered directly in SI) for the paper (currently ePub or online):

Ila Cote et al, The Next Generation of Risk Assessment Multiyear Study— Highlights of Findings, Applications to Risk Assessment and Future Directions, EHP, 2016

I have attached a copy of the paper and thought that you could pass along to your TIMs to find out how the clearance was documented, since there are 2 NCCT authors on the paper.

Thanks,

Steve
