General Comment

Please stop the use of this dangerous pesticide. You banned DDT when it was found to harm the bird's egg shells. How much more evidence do you need to know that this glyphosate is deadly to mankind? We are harming the bees and the butterflies. We have decimated the land and the soil. People are getting sick and sicker. This poison is not necessary to produce healthy crops that can feed us. Please use your government power for good, and stop trusting evil, giant self-serving corporations from harming the populace.
Thank you.
