Thanks for the update and suggestions Angeles.

Is there a compelling reason why NDEP and EPA couldn't meet on 12/5 as proposed and then NDEP could follow up with BLM on 12/7? Given that EPA and BLM will have had a chance to meet beforehand it seems we should be able to cover all the bases.

Given that EPA has significant concerns likely related to positions taken by ARC I think it would be better to meet with ARC on 12/14 rather than go into January.

Greg

Hi Greg,

Unfortunately, EPA and BLM haven't been able to schedule our coordination call. We are still trying to have it this week.

From the email traffic and schedule challenges we are facing, I like to propose we have the BLM, EPA and NDEP meeting on the proposal the week of 12/12 while we are all in NV for OU8 meetings. Wednesday 12/14 is a good day for EPA. I also like to propose we look at early January for the 3 agencies meeting with ARC.

Thanks,

Angeles

> Regardless of the outcome of the first meeting, in the interest of time we would like to set a time for the follow up meeting with ARC and the three agencies so we can have a common understanding of path forward. If we wait until the first meeting to schedule the second meeting we will lose valuable time. EPA has indicated they would be open to meeting the week of 12/12. Is BLM available?
