## General Comment

Please do not re-approve glyphosate.
Glyphosate is highly toxic to our natural world.
The ecological damage because of this toxic poison will take quite a while to heal.
We don't need this toxic in our environment, our food, our bodies, our animals, our air, our water.
We do not want this poison.
PLEASE DO NOT RE-APPROVE GLYPHOSATE.
It a toxic poison and is killing everything it touches.
Thank you.
