Subject: RE: Draft Figures for the Anaconda OU8 Proposed Plan

……
,,,,,,
I like Fig 5.

Fig 2 is a little too cartoony for me, although Figs 3, 4 and 5b are also diagrams (I really prefer the type of diagram used in 5b). Iif others like them I'm fine.

I think they should be tied to a topo map for scale, etc, like the Stormwater Drainage Plan (5a).

Let's see what Sarah says.

Thanks,

Jeryl

Dante,

Attached are the remaining draft figures developed for the Anaconda OU8 PP. Figures 1, 2 and 4 were transmitted previously (attached). The remaining figures focus on remedy features of the alternatives. Let me know if you have any questions.

Dante,

Attached are a couple of preliminary figures for the Proposed Plan. You have already seen the 3D image from Google Earth looking southwest over the site that we plan to use to show the OU8 features and their basic remedy. We are still working on drafting up the depictions of the alternatives.
