Hi Dante,

Thanks for your review and comments.

Likewise, Dave!

I won't have a chance to review anything until next Wednesday.

Thanks,

Jeryl

Jeryl –

I have completed my review of the draft PP and offer my edits in track changes mode. My focus was primarily on conciseness and readability for the public, but I also added some things in order to try to provide everything the guidance calls for in a PP. I updated the cost for the Preferred Alternative based on the complete present value provided in the revised FS by CBI. One major thing I shortened was the risk section, since PP's are supposed to be very brief for that topic; the level of detail you provided would be more appropriate for the ROD. Finally, I noted that I think we should develop some graphic(s) that illustrate the different alternatives. Let's brainstorm about that.

Great job overall Jeryl!

Jeryl, I have completed my review of the Proposed Plan and made minor suggested edits and comments in track changes on the attached version. This was my first PP, so I really didn't have anything to compare it to. I look forward to chatting about the Plan and working towards a final draft. Overall, I would say you did an excellent job on it with the short amount of time you had.

Thanks!

Hi Dante and Dave,

Attached are two documents, a word document draft of the Proposed Plan and a PDF document of figure examples.

I look forward to hearing your comments and thoughts on the Proposed Plan draft, and your

ideas on possible figures, as well as inset boxes mentioned in the text.

Dante, your experience with Superfund sites and development of Proposed Plans will particularly be helpful from a standpoint of Plans you believe to be most likely well received and approved.

As discussed previously your comments, thoughts, and edits are anticipated by August 15th.

Enjoy the light reading!

Jeryl
