Hey Dante,

Those changes are okay with me.

Thanks,
Jeryl

Hey Jeryl,

For p.1 Fig 1, I shortened the title as follows. Does that sound ok to you?

"Figure 1: Site location

Mason Valley, Lyon County, Nevada"

For p.3, I removed the acronym for "vat leach tailings" because the term is only used once in the whole document. No need to create a new acronym in the document if we don't need to.

For p.11, I didn't think that first sentence needed bolding at all, so I removed it. Do you agree?

Let me know if these are ok. I'll start preparing the routine slip and give you a copy that you and Dave can customize for your approval chains.

Hey Dante,

You caught many of the errors I caught.

In addition:

- P.1, Fig 1 (suggest changing title to Aerial Map View of Anaconda Copper Mine (instead of Mason Valley) located in Lyon County, Nevada

- P.2, Your Comments section “Agencies” should be replaced with “agencies” in two instances

- P.3, Investigation and Interim Response Actions section, second paragraph: Bold acronym SPS and FFS, and add bolded acronym (VLT) after vat leach tailings

- P.4, Table 1 sub-title: change Draw-Down Fluids to Drain-Down Fluids

- P.4, Text following Table 1 (continuation from page 3): replace “below” with “above”

- P.4, Same paragraph as previous comment flow rate should not have a hyphen

- P.5, Summary of Site Risks section, continued paragraph below Fig 2: pluralize assessment in last sentence

- P.7, Text box, Remediation Action Objectives should be changed to Remedial Action Objectives

- P.8, Description of Remedial Alternatives section, last paragraph in righthand column: alternatives should be alternative

- P.9, Figure 3, in addition to what you already caught, this figure title and also titles for figs 4, 5, 6, and 7 should also be centered

- P.11, Alt 1 Evaluation: in addition to bolding “1”; can it also be added to the previous line so the title is whole?

- P.13, Summary of Evaluation of Alternatives section: 4th sentence, “Through” should not be capitalized

- P.14, I like the addition of a new figure, Figure 8: but it needs a title: “Figure 8 Anaconda Copper Mine”, or something similar, and it should be centered

That’s what I caught.

Thanks,

Jeryl

Subject: RE: Updated: Anaconda Proposed Plan Fact Sheet

I just completed my review and found various things that need fixing, including:

- boldings that didn’t get carried through for various acronyms and glossary terms,

- Figure 1 title didn’t get fixed,

- Figure 2 didn’t get properly replaced with the revised one,

- Figure 3 didn’t get “Figure 3” put in its title (and for some reason the horizontal scale is missing)

- Figure 4 didn’t get “Figure 4” put in its title

- Figure 5 didn’t get “Figure 5” put in its title and its horizontal scale is missing

- Figure 6 got mixed up with Figure 2

- Figure 7 didn’t get “Figure 7” put in its title

- Errant bolding in Alternative 1 Evaluation

- there was a missing paragraph in the Alternative 3 Evaluation

- Capping was spelled aping in the Alternative 4 Evaluation title.

I'll go ahead and have her fix these things since there is still time today. You guys let me know if you see anything else.

Jeryl and Dave,

Here is the revised PP in full lay-out. I will perform a detailed review to ensure all the changes we wanted were made. You are welcome to do the same, but let's set ourselves a deadline of

noon tomorrow to get any final tweaks back to lay-out. I want to have it finalized and starting the concurrence routing by COB tomorrow. Sound good?

Hi Dante,

Here is the most up to date Anaconda Proposed Plan fact sheet with the changes I had made to adding the photo you had sent to me and thank you for that. Let me know if you have any questions or concerns regarding the layout. Also, I didn't finish making the specific words bold. Did you want to continue keeping the words in bold or unbold them?

Hi Dante,

Sorry for the delay. I added the table of contents and I had to rearrange the entire layout to make content and images fit. I even checked the page numbers to match as well. The only problem we have right now is page 14. Half of the page is blank because there isn't enough information to fill it in. Do you have any additional images or information to add between pages 11-14? Sorry for the trouble and thanks!

We do want the table of contents to be in the Proposed Plan. Keep it small, doesn't need to take up a lot of room.

Hi Dante,

Thank you for the revised text. Per our conversation from today, you wanted this to be done by the end of today, however, there are a lot of adjustments need to be made, in addition to the updated images. I am 90% done. I just need to work on the images, and make adjustments to the last page since I had to add three more pages for it to become a booklet and then I will send another updated draft to you by tomorrow morning. Would that be alright? I am out at 5pm today, but I will be in at 8:00am.

One question I have which I forgot to ask you over the phone. The table of contents you have on page 2 in word document, that isn't supposed to be in the Proposal Plan, correct? Is it just a guidance?

Thanks again and have a good evening.

Hi Cheryl,

Yes, we like the layout. Attached is the revised text for you to insert, replacing the previous text. See my various instructions in [purple] where I note something about layout. I will forward to you the revised figures in a subsequent email. Let me know if you have any questions. I assume the edits will take you maybe a couple days? Let me know approximate timing. Thanks Chery – you are awesome!
