Debra

I attached the current draft of the comment letter to the I-70 Conformity Letter meeting invite.

Do you also need to send to Betsy?

Thanks

Carl – Please review this version. I made a few minor edits (moving hanging dates, etc.), so you can accept them for a clean version for Debra to send upstairs. Please have her add this to the calendar invite.

Subject: RE: Draft Comments for EPA Internal Review on the I-70 East Project Draft ROD Information (1-9-17 Version R8_OTAQ))

Hi all,

Tim and I talked earlier and he has some feedback from his management chain to add to the letter. Meanwhile, I had some additional feedback from mine (Meg and Karl) – so Tim and I agreed I'd send him a revision showing those changes and he would work from that (see attached).

Tim, I reordered some of the comments because there are those that are critical to our review, and then there are those that are items that they could clarify for the public. Have a look & see if you agree. I was also thinking that the comments I labeled as 3 & 4 could go with the first point – they could be seen as examples of missing documentation for our review. So you could organize them that way or leave them as separate items.

I added a paragraph that summarized the main point of the timeline but if you keep the timeline, it's probably not necessary.

Let me know if you have questions about anything.
