Dear Sir;

As to our conservation in regard to my operation at the South Dayton Dump, I do request an extention of the previous waiver on requirements for engineering plans until the Incinerator goes into full operation. The final date should remain open and subject to your final order. The prior waiver was dated Oct. 8, 1969 thru Dec. 31, 1969.

As we all know there will be a lot of confusion when the Bertwyn Lane facility goes into operation, it is not hard to control household wastes but industrial wastes will be a big problem.

I will cooperate in any way to be of service to the operation and would even consider taking the residue from the Incinerator if they have a problem of disposing of the ash.

Sincerely yours,
Alcine S. Grillot
