Water Gen MTA 2017-08-10draft.docx
Mutual confidentiality agreementdraft.docx

Happy Friday Ed, Yehuda and Zach,
Jay is out of the office so I wanted to follow-up with you about the attached draft material transfer agreement and non-disclosure agreement. These are the two documents that need to be finalized in order for the EPA to accept the WaterGen unit at the Cincinnati lab and receive & review your water quality process/data. As you're aware, the statement of work associated with the CRADA is currently being revised to reflect the decisions made in Cincinnati last week and we expect to have the revised version to you next week.

In the meantime, if and your legal team would please review the attached documents and provide any comments, edits, or changes by COB Wednesday, August 30th, we'd greatly appreciated it. If you have questions or concerns, you may contact Geoff Cooper or Laura Scalise who are both copied on this email.

Please note - the MTA lists two units as I was not certain which would be delivered to the EPA. Feel free to simply delete the unit that will not be delivered.

Ed,

Have attached a copy of the template NDA that we routinely use before entering into a CRADA. If you have questions, Geoff (cc'ed) is happy to talk with you. Also, please feel free to reach out to Ardra regarding your question about GSA.

I am working with our technical folks on revising the SOW by the end of the week.

Talk soon,

Subject: Happy Solar Eclipse

Jay,

I was told that we need to apply for and receive a GSA approval through the GSA application process. Do you know about this or can you direct me to some that could help me get this done in a form that will be helpful for what we are doing together?

Thanks,

Ed
